

## Manhattan Associates Recognized as a Leader in the Gartner® Magic Quadrant™ for WMS

May 6, 2026 12:30 PM EDT

ATLANTA--(BUSINESS WIRE)--May 6, 2026-- [Manhattan Associates Inc.](#) (NASDAQ: MANH), the global leader in native AI-empowered supply chain commerce solutions, today announced that it has again been named a Leader in [Gartner® Magic Quadrant™ for Warehouse Management Systems](#). In the companion Gartner Critical Capabilities for Warehouse Management Systems report, Manhattan Active WM is evaluated on 11 Critical Capabilities across five warehouse Use Cases, receiving the highest score among the 21 vendors analyzed for Level 3, Level 4 and Level 5 Warehouse Operations.

[Manhattan Active® Warehouse Management](#) (WM) is the industry's first cloud-native WMS, built 100% on microservices to deliver effortless extensibility and continuous innovation, ushering in a new level of supply chain speed, agility and simplicity. Its scalable, composable architecture and portfolio of pre-built and custom AI agents make it an ideal fit for operations ranging from mid-complexity warehouses to the world's largest, most sophisticated distribution centers.

Beyond orchestrating seamless flows of goods and data, Manhattan Active WM boosts warehouse operational efficiency and accuracy through intelligent automation and streamlined processes. The solution delivers real-time visibility into inventory levels and locations, enhanced scalability to keep pace with shifting demand and business requirements, and labor optimization with gamification features that create more engaging experiences for warehouse associates.

"We are proud to be named a Leader in the Gartner Magic Quadrant for Warehouse Management Systems for the 18<sup>th</sup> time in a row," said Adam Kline, senior director of Product Management, Manhattan Associates. "By embedding agentic AI in our supply chain offerings, we're enabling customers to operate with unprecedented intelligence, resilience, and agility - ensuring Manhattan remains synonymous with innovation and future-proof performance for modern warehouses."

[Manhattan Active AI agents](#), commercially released in January, are designed to autonomously analyze, decide, and execute workflows across supply chain and logistics operations. While Manhattan's warehouse-focused agents continuously monitor work queues, automation, and inventory to anticipate issues and optimize task orchestration, the Labor Agent provides powerful, cross-department guidance on workforce deployment based on remaining work, service commitments, and evolving priorities.

Backed by the industry's most experienced global customer experience organization and an extensive ecosystem of partners, Manhattan Active WM is a gamechanger for any company operating in fast-moving, demanding B2C and B2B environments. It also seamlessly coordinates with [Manhattan Active® Transportation Management \(TM\)](#), to completely unify supply chain execution. By consolidating all distribution, labor, automation, transportation, and yard management in a unified cloud-native solution, Manhattan's offerings are engineered to bring maximum inventory performance, operational efficiency, and workforce agility to businesses, across the entire supply chain.
