SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549

**FORM 10-Q**

[Mark One]

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended March 31, 2022

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 0-23999

**MANHATTAN ASSOCIATES, INC.**

(Exact Name of Registrant as Specified in Its Charter)

**Georgia**

(State or Other Jurisdiction of  
Incorporation or Organization)

**58-2373424**

(I.R.S. Employer  
Identification No.)

**2300 Windy Ridge Parkway, Tenth Floor**

**Atlanta, Georgia**

(Address of Principal Executive Offices)

**30339**

(Zip Code)

**Registrant's Telephone Number, Including Area Code: (770) 955-7070**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock	MANH	Nasdaq Global Select Market

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the Registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulations S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging Growth Company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

The number of shares of the Registrant's class of capital stock outstanding as of April 22, 2022, the latest practicable date, is as follows: 63,113,541 shares of common stock, \$0.01 par value per share.

**Notes to Condensed Consolidated Financial Statements**  
**(Unaudited)**

**1. Basis of Presentation and Principles of Consolidation**

**Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of Manhattan Associates, Inc. and its subsidiaries (the “Company,” “we,” “us,” “our,” or “Manhattan”) have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information, with the instructions to Form 10-Q and with Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required for complete financial statements. In the opinion of management, these condensed consolidated financial statements contain all normal recurring adjustments considered necessary for a fair presentation of our financial position at March 31, 2022, the results of operations for the three months ended March 31, 2022 and 2021, and cash flows for the three months ended March 31, 2022 and 2021. The results for the three months ended March 31, 2022 are not necessarily indicative of the results to be expected for the full year or any other interim period. These statements should be read in conjunction with our audited consolidated financial statements and management’s discussion and analysis included in our annual report on Form 10-K for the year ended December 31, 2021.

**Principles of Consolidation**

The accompanying condensed consolidated financial statements include our accounts and the accounts of our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation.

**2. Revenue Recognition**

We recognize revenue when we transfer control of the promised products or services to our customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those products or services. We derive our revenue from cloud subscriptions, software licenses, customer support services and software enhancements (“maintenance”), implementation and training services, and sales of hardware. We exclude sales and usage-based taxes from revenue.

*Nature of Products and Services*

Cloud subscriptions includes software as a service (SaaS) and arrangements which provide customers with the right to use our software within a cloud environment that we provide and manage where the customer does not have the right to take possession of the software without significant penalty. SaaS and hosting revenues are recognized ratably over the contract period. For contracts that include a perpetual license and hosting services, we generally consider the arrangement as an overall service, recognized over the initial hosting term. The software license fee typically due at the outset of the arrangement is not payable again if the customer renews the hosting services, so that the customer’s option to renew the hosting services is a material right, the revenue from which, if the option is exercised, we will recognize over the applicable renewal period.

Our perpetual software licenses provide the customer with a right to use the software as it exists at the time of purchase. We recognize revenue for distinct software licenses once the license period has begun and we have made the software available to the customer. Our perpetual software licenses are typically sold with maintenance under which we provide a comprehensive 24 hours per day, 365 days per year program that provides customers with software upgrades, when and if available, which include additional or improved functionality and technological advances incorporating emerging supply chain and industry initiatives. Revenue related to maintenance is generally paid in advance and recognized ratably over the term of the agreement, typically twelve months.

Our services revenue consists of fees generated from implementation, training, and application managed services, including reimbursements of out-of-pocket expenses in connection with our implementation services. Implementation services include system planning, design, configuration, testing, and other software implementation support, and are typically optional and distinct from our software. Following implementation, customers may purchase application managed services to support and maintain our software. Fees for our services are separately priced and are generally billed on an hourly basis, and revenue is recognized over time as the services are performed. In certain situations, we render professional services under agreements based upon a fixed fee for portions of or all of the engagement. Revenue related to fixed-fee-based services contracts is recognized over time based on the proportion performed.

As part of a complete solution, our customers periodically purchase hardware products developed and manufactured by third parties from us for use with the software licenses purchased from us. These products include computer hardware, radio frequency terminal networks, radio frequency identification (RFID) chip readers, bar code printers and scanners, and other peripherals. As we do not physically control the hardware that we sell, we are acting as an agent in the transaction and recognize our hardware revenue net of related cost. We recognize hardware revenue when control is transferred to the customer upon shipment.

#### *Significant Judgments*

Our customer contracts include the sale of multiple SaaS services or licensed products. Judgement is required to determine whether each service or product sold is a distinct performance obligation that should be accounted for separately. We allocate the transaction price to the distinct performance obligations based on relative standalone selling price (“SSP”). We estimate SSP based on the prices we charge our customers or by using other information such as market conditions and other observable inputs. However, the selling price of our software licenses is highly variable. Thus, we estimate SSP for software licenses using the residual approach, determined based on total transaction price less the SSP of other goods and services promised in the contract.

#### *Contract Balances*

Timing of invoicing to customers may differ from timing of revenue recognition. Payment terms for our software licenses vary. We have an established history of collecting under the terms of our software license contracts without providing refunds or concessions to our customers. Cloud subscriptions and maintenance are typically billed annually in advance. We typically bill our professional services monthly as performed. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined that our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with predictable ways to purchase our software and services, not to provide or receive financing. Additionally, we are applying the practical expedient to exclude from consideration any contracts with payment terms of one year or less as we rarely offer terms extending beyond one year.

Deferred revenue mainly represents amounts collected prior to having completed performance of cloud subscriptions, maintenance, and professional services. In the three months ended March 31, 2022, we recognized \$65.1 million of revenue that was included in the deferred revenue balance as of December 31, 2021.

No revenue was recognized during the three months ended March 31, 2022 from performance obligations that were satisfied in prior periods.

#### *Remaining Performance Obligations*

As of March 31, 2022, approximately \$809.5 million of revenue, over 97% of which is cloud native subscriptions, is expected to be recognized from remaining performance obligations (“RPO”) with a non-cancelable term greater than 1 year (including deferred revenue as well as amounts that will be invoiced and recognized as revenue in future periods). We expect to recognize revenue on approximately 40% of these remaining performance obligations over the next 24 months with the balance recognized thereafter. We have elected not to provide disclosures regarding remaining performance obligations for contracts with a term of 1 year or less.

#### *Returns and Allowances*

We have not experienced significant returns or warranty claims to date and, as a result, have not recorded a provision for the cost of returns and product warranty claims.

We record an allowance for doubtful accounts based on historical experience of write-offs and a detailed assessment of accounts receivable. Additions to the allowance for credit losses generally represent a sales allowance on services revenue, which are recorded to operations as a reduction to services revenue. The total amount charged to operations was \$1.0 million and \$0.7 million for the three months ended March 31, 2022 and 2021, respectively.

Our analysis involved utilizing a model of internal historical losses data. In estimating the allowance for credit losses, we considered the age of the accounts receivable, our historical write-offs, and the historical creditworthiness of the customer, among other factors. Should any of these factors change, the estimates made by us will also change accordingly, which could affect the level of our future allowances. We also analyzed future expected credit losses given ever present changes to future risks in projected economic conditions and future risks of customer collection.

#### *Deferred Commissions*

We consider sales commissions to be incremental costs of obtaining a contract with a customer. We defer and recognize an asset for sales commissions related to performance obligations with an expected period of benefit of more than one year. We apply the practical expedient to expense sales commissions when the amortization period would have been one year or less. Deferred commissions were \$25.8 million as of March 31, 2022, of which \$18.9 million is included in other assets and \$6.9 million is included in prepaid expenses. Sales commission expense is included in Sales and Marketing expense in the accompanying Consolidated Statements of Income. Amortization of sales commissions was \$1.8 million and \$1.1 million for the three months ended March 31, 2022 and 2021, respectively. No impairment losses were recognized during the periods.

### **3. Fair Value Measurement**

We measure our investments based on a fair value hierarchy disclosure framework that prioritizes and ranks the level of market price observability used in measuring assets and liabilities at fair value. Market price observability is affected by a number of factors, including the type of asset or liability and its characteristics. This hierarchy prioritizes the inputs into three broad levels as follows:

- Level 1—Quoted prices in active markets for identical instruments.
- Level 2—Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.
- Level 3—Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Investments with maturities of 90 days or less from the date of purchase are classified as cash equivalents; investments with maturities of greater than 90 days from the date of purchase but less than one year are generally classified as short-term investments; and investments with maturities of one year or greater from the date of purchase are generally classified as long-term investments. Unrealized holding gains and losses are reflected as a net amount in a separate component of shareholders' equity until realized. For the purposes of computing realized gains and losses, cost is determined on a specific identification basis.

At March 31, 2022, our cash and cash equivalents were \$202.3 million and \$14.0 million, respectively. We had neither short-term investments nor long-term investments at March 31, 2022. Cash equivalents consist of highly liquid money market funds. For money market funds, we use quoted prices from active markets that are classified at Level 1, the highest level of observable input in the disclosure hierarchy framework. We had no investments classified at Level 2 or Level 3 at March 31, 2022.

### **4. Leases**

We lease our facilities and some of our equipment under noncancelable operating lease arrangements that expire at various dates through 2029. For a few of our facility leases, we have certain options to extend the lease term for up to 10 years, at our sole discretion. We have no finance leases.

We present below the operating lease right-of-use assets and lease liabilities as of March 31, 2022 (in thousands):

	<b>March 31, 2022</b>
<b>ASSETS</b>	
Operating lease right-of-use assets	\$ 25,539
<b>LIABILITIES</b>	
Operating lease liabilities, current (included in accrued and other liabilities)	\$ 6,821
Operating lease liabilities, long-term	21,247
<b>Total operating lease liabilities</b>	<b>\$ 28,068</b>

Aggregate future minimum lease payments under noncancelable operating leases as of March 31, 2022 are as follows (in thousands):

<b>Year Ending December 31,</b>	
2022 (excluding the three months ended March 31, 2022)	\$ 5,559
2023	7,176
2024	6,322
2025	5,525
2026	2,685
Thereafter	4,828
<b>Total minimum payments required</b>	<b>32,095</b>
Less short-term leases	(101)
Less imputed interest	(3,926)
<b>Total operating lease liabilities</b>	<b>\$ 28,068</b>

The total lease cost for the three months ended March 31, 2022 was \$2.0 million. Total lease cost for the three months ended March 31, 2022 consisted of \$1.9 million of operating lease costs, and \$0.1 million of short-term lease costs. Our variable lease costs for the three months ended March 31, 2022 and 2021 were immaterial.

Other information related to operating leases are as follows:

Weighted average remaining lease term	4.9
Weighted average discount rate	2%
<b>Supplemental cash flow information - operating cash flows (in thousands):</b>	
Cash paid for amounts included in the measurement of lease liabilities	
Operating cash flows for operating leases	\$ 1,915

## 5. Equity-Based Compensation

We granted 653,206 and 324,591 restricted stock units (RSUs) during the three months ended March 31, 2022 and 2021, respectively. Equity-based compensation expense related to RSUs was \$14.1 million and \$10.1 million during the three months ended March 31, 2022 and 2021, respectively.

We present below a summary of changes during the three months ended March 31, 2022 in our unvested units of restricted stock:

	<b>Number of shares/units</b>
<b>Outstanding at December 31, 2021</b>	<b>1,388,467</b>
Granted	653,206
Vested	(544,836)
Forfeited	(11,967)
<b>Outstanding at March 31, 2022</b>	<b>1,484,870</b>

## 6. Income Taxes

Our effective tax rate was 11.9% and 9.9% for the three months ended March 31, 2022 and 2021, respectively. The decrease in the effective tax rate for three months ended March 31, 2022 and 2021 is due to a decrease of excess tax benefits on restricted stock vesting as a percentage of pre-tax income and an increase in expense related to restricted stock compensation limit.

We apply the provisions for income taxes related to, among other things, accounting for uncertain tax positions and disclosure requirements in accordance with Accounting Standards Classification (ASC) 740, Income Taxes. For the three months ended March 31, 2022, there were no material changes to our uncertain tax positions. There has been no change to our policy that recognizes potential interest and penalties related to uncertain tax positions within our global operations in income tax expense.

We conduct business globally and, as a result, file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. In the normal course of business, Manhattan is subject to examination by taxing authorities throughout the world. We are no longer subject to the U.S. federal, substantially all state and local income tax examinations and substantially all non-U.S. income tax examinations for years before 2010.

## 7. Basic and Diluted Net Income Per Share

Basic net income per share is computed using net income divided by the weighted average number of shares of common stock outstanding (“Weighted Shares”) for the period presented.

Diluted net income per share is computed using net income divided by Weighted Shares and the treasury stock method effect of common equivalent shares (CESSs) outstanding for each period presented.

In the following table, we present a reconciliation of earnings per share and the shares used in the computation of earnings per share for the three months ended March 31, 2022 and 2021 (in thousands, except per share data):

	Three Months Ended March 31,	
	2022	2021
	(in thousands, except per share data)	
Net income	\$ 30,592	\$ 22,643
<b>Earnings per share:</b>		
Basic	\$ 0.48	\$ 0.36
Effect of CESSs	-	(0.01)
Diluted	\$ 0.48	\$ 0.35
<b>Weighted average number of shares:</b>		
Basic	63,213	63,645
Effect of CESSs	658	821
Diluted	63,871	64,466

The number of anti-dilutive CESSs during the three months ended March 31, 2022 and 2021 was immaterial.

## 8. Contingencies

From time to time, we may be involved in litigation relating to claims arising out of the ordinary course of business, and occasionally legal proceedings not in the ordinary course. Many of our installations involve products that are critical to the operations of our clients’ businesses. Any failure in one of our products could result in a claim for substantial damages against us, regardless of our responsibility for such failure. Although we attempt to limit contractually our liability for damages arising from product failures or negligent acts or omissions, there can be no assurance that the limitations of liability set forth in our contracts will be enforceable in all instances. We are not currently a party to any legal proceedings in the ordinary course of business or other legal proceedings the result of which we believe is likely to have a material adverse impact on our business, financial position, results of operations, or cash flows. We expense legal costs associated with loss contingencies as such legal costs are incurred.

## 9. Operating Segments

We manage our business by geographic region and have three geographic reportable segments: North and Latin America (the “Americas”); Europe, the Middle East and Africa (EMEA); and Asia Pacific (APAC). All segments derive revenue from the sale and implementation of our supply chain commerce solutions. The individual products sold by the segments are similar in nature and are all designed to help companies manage the effectiveness and efficiency of their supply chain commerce. We use the same accounting policies for each reportable segment. The chief executive officer and chief financial officer evaluate performance based on revenue and operating results for each reportable segment.

The Americas segment charges royalty fees to the other segments based on software licenses and cloud subscriptions sold by those reportable segments. The royalties, which totaled approximately \$2.5 million and \$1.6 million for the three months ended March 31, 2022 and 2021, respectively, are included in costs of revenue for each segment with a corresponding reduction in the Americas segment’s cost of revenue. The revenues represented below are from external customers only. The geography-based costs consist of costs for professional services personnel, direct sales and marketing expenses, infrastructure costs to support the employee and customer base, billing and financial systems, management and general and administrative support. Certain corporate expenses included in the Americas segment are not charged to the other segments. Such expenses include research and development, certain marketing and general and administrative costs that support the global organization, and the amortization of acquired developed technology. Costs in the Americas segment include all research and development costs, including the costs associated with our operations in India.

In accordance with the segment reporting topic of the FASB Accounting Standards Codification, we present below certain financial information by reportable segment for the three months ended March 31, 2022 and 2021 (in thousands):

	Three Months Ended March 31,							
	2022				2021			
	Americas	EMEA	APAC	Consolidated	Americas	EMEA	APAC	Consolidated
<b>Revenue:</b>								
Cloud subscriptions	\$ 31,429	\$ 4,902	\$ 966	\$ 37,297	\$ 22,489	\$ 3,578	\$ 576	\$ 26,643
Software license	4,002	3,999	357	8,358	4,160	3,152	526	7,838
Maintenance	27,957	4,893	2,452	35,302	28,236	5,562	2,361	36,159
Services	68,119	18,309	3,490	89,918	62,180	16,039	2,140	80,359
Hardware	8,033	48	-	8,081	5,748	103	-	5,851
Total revenue	139,540	32,151	7,265	178,956	122,813	28,434	5,603	156,850
<b>Costs and Expenses:</b>								
Cost of revenue	62,743	16,735	3,949	83,427	55,307	15,424	3,334	74,065
Operating expenses	53,841	4,737	1,232	59,810	49,505	4,434	1,286	55,225
Depreciation and amortization	1,563	162	22	1,747	1,885	202	48	2,135
Total costs and expenses	118,147	21,634	5,203	144,984	106,697	20,060	4,668	131,425
Operating income	\$ 21,393	\$ 10,517	\$ 2,062	\$ 33,972	\$ 16,116	\$ 8,374	\$ 935	\$ 25,425

Cloud subscriptions revenue primarily relates to our Manhattan Active omnichannel, warehouse management solutions, and transportation management solutions for the three months ended March 31, 2022. The majority of our software license revenue relates to our warehouse management product group (over 90%) for the three months ended March 31, 2022.

At March 31, 2022, total assets for the Americas, EMEA and APAC segments were \$427.6 million, \$65.3 million and \$18.9 million, respectively.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion should be read in conjunction with the condensed consolidated financial statements for the three months ended March 31, 2022 and 2021, including the notes to those statements, included elsewhere in this quarterly report. We also recommend the following discussion be read in conjunction with management's discussion and analysis and consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2021. Statements in the following discussion that are not statements of historical fact are "forward-looking statements." Actual results may differ materially from the results predicted in such forward-looking statements, for a variety of factors. See "Forward-Looking Statements" below.

References in this filing to the "Company," "Manhattan," "Manhattan Associates," "we," "our," and "us" refer to Manhattan Associates, Inc., our predecessors, and our wholly owned and consolidated subsidiaries.

### Business Overview

We develop, sell, deploy, service and maintain software solutions designed to manage Unified Omnichannel Commerce and Digital Supply Chain, inventory and omnichannel operations for retailers, wholesalers, manufacturers, logistics providers and other organizations. Our customers include many of the world's most premier and profitable brands.

Our business model is singularly focused on the development and implementation of complex commerce enablement software solutions that are designed to optimize supply chains, and retail store operations including point of sale effectiveness and efficiency for our customers.

We have five principal sources of revenue:

- cloud subscriptions, including software as a service (SaaS) and hosting of software;
- licenses of our software;
- customer support services and software enhancements (collectively, "maintenance");
- professional services, including solutions planning and implementation, related consulting, customer training, and reimbursements from customers for out-of-pocket expenses (collectively, "services"); and
- hardware sales.

In the three months ended March 31, 2022, we generated \$179.0 million in total revenue. The revenue mix for the three months ended March 31, 2022 was: cloud subscriptions 21%; software license 5%; maintenance 20%; services 50%; and hardware 4%.

We have three geographic reportable segments: North and Latin America (the "Americas"), Europe, the Middle East and Africa (EMEA), and Asia-Pacific (APAC). Geographic revenue is based on the location of the sale. Our international revenue was approximately \$56.5 million for the three months ended March 31, 2022, which represents approximately 32% our total revenue for the three months ended March 31, 2022. International revenue includes all revenue derived from sales to customers outside the United States. At March 31, 2022, we employed approximately 3,600 employees worldwide. We have offices in Australia, Chile, China, France, Germany, India, Italy, Japan, the Netherlands, Singapore, Spain, the United Kingdom, and the United States, as well as representatives in Mexico and reseller partnerships in Latin America, Eastern Europe, the Middle East, South Africa, and Asia.

### Future Expectations

Regarding the impact of the COVID-19 pandemic, we remain cautious about the global recovery, which we expect to be protracted. Despite the COVID-19 pandemic, our results for the first three months of 2022 exceeded our expectations due to solid demand for our cloud solutions. Our solutions are mission critical, supporting complex global supply chains. We believe that favorable secular tailwinds, such as the digital transformation of businesses in manufacturing, wholesale and retail, coupled with our commitment to investing in organic innovation to deliver leading cloud supply chain, inventory and omnichannel commerce solutions is in synergistic alignment with current market demand. We believe that this alignment is contributing to our strong financial results, higher demand and strong win rates for our solutions for the period.

We remain committed to investing in our business to drive customer success and expand our total addressable market, which we believe will position us well to achieve long-term sustainable growth and earnings. We have taken steps to best ensure the health and safety of our employees globally. Our daily execution has evolved into hybrid model, and we continue to find innovative ways to engage with employees, customers and prospects, ensuring that they are supported as they navigate their way through this period.

Going forward, we are investing in our cloud business, including enterprise investments in innovation, and strategic operating expenses to support growth objectives. The pace at which the market adopts our cloud subscriptions, resulting in revenue recognition spread out over the subscription period rather than up front, combined with extended lead times for developing new business, can cause uncertainty, impacting our ability to accurately forecast bookings and revenues from quarter to quarter and over the longer term.

For the remainder of 2022, our five strategic goals remain:

- Focus on employees, customer success and drive sustainable long-term growth;
- Invest in innovation to expand our products and total addressable market;
- Expand our Manhattan Active Suite of Cloud Solutions;
- Develop and grow our cloud business and cloud subscription revenue; and
- Expand our global sales and marketing teams.

### **Cloud Subscription**

In 2017, we released Manhattan Active™ Solutions, accelerating our business transition to cloud subscriptions. Under a cloud subscription, customers pay a periodic fee for the right to use our software within a cloud environment that we provide and manage over a specified period of time. As part of our subscription program, we allow our existing customers to convert their maintenance contracts to cloud subscription contracts. Some customers have converted their maintenance contracts to cloud subscriptions, and we expect there will be continued opportunities to convert existing maintenance contracts to cloud subscription contracts in the future.

In the fifth year of our cloud transition, demand for our cloud solutions is the dominant preference of customers. Our perpetual license solutions are rapidly attriting due to market demand for our cloud solutions with 90% of our pipeline representing cloud solutions. Cloud solutions are our fastest growing revenue line and represents 82% of total software revenue in the first three months of 2022. We believe the reduction in license and maintenance revenue in favor of our cloud offerings is positive for our customers and Manhattan Associates.

### **Global Economic Trends and Industry Factors**

Global macro-economic trends, technology spending, and supply chain management market growth are important barometers for our business. In the three months ended March 31, 2022, approximately 68% of our total revenue was generated in the United States, 18% in EMEA, and the remaining balance in APAC, Canada, and Latin America. In addition, Gartner Inc. (“Gartner”), an information technology research and advisory company, estimates that nearly 75% of every supply chain software solutions dollar invested is spent in North America and Western Europe; consequently, the health of the U.S. and the Western European economies have a meaningful impact on our financial results.

We sell technology-based solutions with total pricing, including software and services, in many cases exceeding \$1.0 million. Our software is often a part of our customers’ and prospects’ much larger capital commitment associated with facilities expansion and business improvement. We believe that, given the mission critical nature of our software, combined with a challenging global macro environment, our current sales cycles for large cloud subscriptions in our target markets could be extended. While demand for our solutions is solid, the current business climate within the United States and geographic regions in which we operate may affect customers’ and prospects’ decisions regarding timing of strategic capital expenditures.

While we are encouraged by our results, we remain cautious regarding the pace of global economic growth. We believe global geopolitical and economic volatility likely will continue to shape customers’ and prospects’ enterprise software buying decisions.

## **Revenue**

**Cloud Subscriptions and Software License Revenue.** Cloud subscriptions revenue and remaining performance obligation (“RPO”) growth are the leading indicators of our business performance, primarily derived from cloud native subscription fees that customers pay for our Unified Omnichannel Commerce and Digital Supply Chain solutions. Since we announced our transition to becoming a cloud-first company in 2017 with our launch of Manhattan Active™ Solutions, we have continued to see a significant shift in demand for cloud solutions versus software licenses. By comparison, in 2016, cloud subscriptions and software license revenue represented 7% and 93%, respectively, of our total cloud and software license revenue mix.

In the three months ended March 31, 2022, cloud subscriptions revenue was 82% of total cloud and software license revenue. RPO increased 92% over prior year on strong demand. As of March 31, 2022, approximately \$809.5 million of revenue, over 97% of which is cloud native subscriptions, is expected to be recognized from RPO with a non-cancelable term greater than 1 year (including deferred revenue as well as amounts that will be invoiced and recognized as revenue in future periods). Going forward, we expect cloud revenue to increase as a percentage of total software and cloud revenue as market demand for cloud solutions is supplanting legacy perpetual license demand.

In the three months ended March 31, 2022, cloud subscriptions revenue totaled \$37.3 million or 21% of total revenues. The Americas, EMEA and APAC segments recognized \$31.4 million, \$4.9 million and \$1.0 million in cloud subscriptions revenue, respectively, in the three months ended March 31, 2022. Cloud subscriptions revenue is recognized ratably over the term of the agreement, typically five years and more. Cloud subscription revenue growth is influenced by the strength of general economic and business conditions and the competitive position of our software products. These revenues generally have long sales cycles. In the three months ended March 31, 2022, the percentage mix of new to existing customers for the combination of software license and cloud subscriptions sales was approximately 55/45.

In the three months ended March 31, 2022, software license revenue totaled \$8.4 million, or 5% of total revenue. Software license revenue recognized by the Americas, EMEA, and APAC segments totaled \$4.0 million, \$4.0 million, and \$0.4 million, respectively, in the three months ended March 31, 2022.

Our Unified Omnichannel Commerce and Digital Supply Chain solutions are focused on core omnichannel operation (e-commerce, retail store operations and point of sale), supply chain commerce operations (Warehouse Management, Transportation Management and Labor Management), and Inventory Optimization, which are intensely competitive markets characterized by rapid technological change. We are a market leader in the supply chain management and omnichannel software solutions market as defined by industry analysts such as ARC Advisory Group and Gartner. Our goal is to extend our position as a leading global supply chain solutions provider by growing our cloud subscriptions and software license revenues faster than our competitors through investment in innovation.

**Maintenance Revenue.** Our maintenance revenue for the three months ended March 31, 2022 totaled \$35.3 million, or 20% of total revenue. The Americas, EMEA and APAC segments recognized \$28.0 million, \$4.9 million, and \$2.4 million in maintenance revenue, respectively, in the three months ended March 31, 2022. For maintenance, we offer a comprehensive 24 hours per day, 365 days per year program that provides our perpetual software license customers with software upgrades, when and if available, which include additional or improved functionality and technological advances incorporating emerging supply chain and industry initiatives. Maintenance revenue is influenced by: (1) new software license revenue growth; (2) annual renewal of support contracts; (3) increase in customers through acquisitions; (4) fluctuations in currency rates, and (5) conversion of maintenance contracts to cloud subscription contracts. Substantially all of our customers renew their annual support contracts. Maintenance revenue is generally paid in advance and recognized ratably over the term of the agreement, typically twelve months. Maintenance renewal revenue is recognized over the renewal period once we have a contract upon payment from the customer.

**Services Revenue.** In the three months ended March 31, 2022, our services revenue totaled \$89.9 million, or 50% of total revenue. The Americas, EMEA and APAC segments recognized \$68.1 million, \$18.3 million and \$3.5 million in services revenue, respectively, in the three months ended March 31, 2022.

Our professional services organization provides our customers with expertise and assistance in planning and implementing our solutions. To ensure a successful product implementation, consultants assist customers with the initial installation of a system, the conversion and transfer of the customer's historical data onto our system, and ongoing training, education, and system upgrades. We believe our professional services enable customers to implement our software rapidly, ensure the customer's success with our solutions, strengthen our customer relationships, and add to our industry-specific knowledge base for use in future implementations and product innovations.

Although our professional services are optional, the majority of our customers use at least some portion of these services for their planning, implementation, or related needs. Professional services are typically rendered under time and materials-based contracts with services typically billed on an hourly basis. Professional services are sometimes rendered under fixed-fee based contracts with payments due on specific dates or milestones.

Services revenue growth is contingent upon cloud sales and customer upgrade cycles, which are influenced by the strength of general economic and business conditions and the competitive position of our software products. In addition, our professional services business has competitive exposure to offshore providers and other consulting companies.

**Hardware Revenue.** Our hardware revenue, which we recognize net of related costs, totaled \$8.1 million in the three months ended March 31, 2022 representing 4% of total revenue. In conjunction with the licensing of our software, and as a convenience for our customers, we resell a variety of hardware products developed and manufactured by third parties. These products include computer hardware, radio frequency terminal networks, RFID chip readers, bar code printers and scanners, and other peripherals. We resell all third-party hardware products and related maintenance pursuant to agreements with manufacturers or through distributor-authorized reseller agreements pursuant to which we are entitled to purchase hardware products and services at discount prices. We generally purchase hardware from our vendors only after receiving an order from a customer. As a result, we do not maintain hardware inventory.

#### **Product Development**

We continue to invest significantly in research and development (R&D) to provide leading Unified Omnichannel Commerce and Digital Supply Chain solutions to enable global retailers, manufacturers, wholesalers, distributors, and logistics providers to successfully manage accelerating and fluctuating demands as well as the increasing complexity and volatility of their local and global supply chains, retail store operations and points of sale. Our R&D expenses were \$27.5 million for the three months ended March 31, 2022.

We expect to continue to focus our R&D resources on the development and enhancement of our core supply chain, inventory optimization, omnichannel and point of sale software solutions. We offer what we believe to be the broadest solutions portfolio in the supply chain solutions marketplace, addressing all aspects of inventory optimization, transportation management, distribution management, planning, and omnichannel operations including order management, store inventory & fulfillment, call center and point-of-sale.

We also plan to continue to enhance our existing solutions and to introduce new solutions to address evolving industry standards and market needs. We identify opportunities to further enhance our solutions and to develop and provide new solutions through our customer support organization, as well as through ongoing customer consulting engagements and implementations, interactions with our user groups, association with leading industry analysts and market research firms, and participation in industry standards and research committees. Our solutions address the needs of customers in various vertical markets, including retail, consumer goods, food and grocery, logistics service providers, industrial and wholesale, high technology and electronics, life sciences, and government.

### **Cash Flow and Financial Condition**

For the three months ended March 31, 2022, we generated cash flow from operating activities of \$31.8 million. Our cash and cash equivalents at March 31, 2022 totaled \$216.3 million, with no debt on our balance sheet. We currently have no credit facilities. Our primary uses of cash have been for funding investments in R&D in our Unified Omnichannel Commerce and Digital Supply Chain solutions to drive revenue and earnings growth. In addition, during the three months ended March 31, 2022, we repurchased approximately \$50.0 million of Manhattan Associates' outstanding common stock under the share repurchase program approved by our Board of Directors. In April 2022, our Board of Directors approved raising the Company's remaining share repurchase authority to an aggregate of \$75.0 million of our common stock.

For the remainder of 2022, our priorities for use of cash will continue to be investments in our Unified Omnichannel Commerce and Digital Supply Chain solutions. We also will prioritize capital allocation in our global teams to fund growth, and accretive share repurchases. We do not anticipate any borrowing requirements in 2022 for general corporate purposes.

### **Results of Operations**

In the following table, we present a summary of our consolidated results for the three months ended March 31, 2022 and 2021.

	<b>Three Months Ended March 31,</b>	
	<b>2022</b>	<b>2021</b>
	<b>(in thousands, except per share data)</b>	
Revenue	\$ 178,956	\$ 156,850
Costs and expenses	144,984	131,425
Operating income	33,972	25,425
Other income (loss), net	738	(293)
Income before income taxes	34,710	25,132
Net income	\$ 30,592	\$ 22,643
Diluted earnings per share	\$ 0.48	\$ 0.35
Diluted weighted average number of shares	63,871	64,466

We have three geographic reportable segments: the Americas, EMEA, and APAC. Geographic revenue information is based on the location of sale. The revenues represented below are from external customers only. The geography-based expenses include costs of personnel, direct sales, marketing expenses, and general and administrative costs to support the business. There are certain corporate expenses included in the Americas segment that we do not charge to the other segments, including R&D, certain marketing and general and administrative costs that support the global organization, and the amortization of acquired developed technology. Included in the Americas costs are all R&D costs, including the costs associated with our operations in India. During the three months ended March 31, 2022 and 2021, we derived the majority of our revenues from sales to customers within our Americas segment. In the following table, we present a summary of revenue and operating income by segment:

	Three Months Ended March 31,		% Change vs. Prior Year
	2022	2021	
(in thousands)

#### **Condensed Consolidated Financial Summary - First Quarter 2022**

- Consolidated total revenue: \$179.0 million for the first quarter of 2022, compared to \$156.9 million for the first quarter of 2021;
- Cloud subscription revenue: \$37.3 million for the first quarter of 2022, compared to \$26.6 million for the first quarter of 2021;
- Software license revenue: \$8.4 million for the first quarter of 2022, compared to \$7.8 million for the first quarter of 2021;
- Operating income: \$34.0 million for the first quarter of 2022, compared to \$25.4 million for the first quarter of 2021;

- Operating margins: 19.0% for the first quarter of 2022, compared to 16.2% for the first quarter of 2021;
- Diluted earnings per share: \$0.48 for the first quarter of 2022 compared to \$0.35 for the first quarter of 2021;
- Cash flow from operations: \$31.8 million in the first quarter of 2022, compared to \$39.9 million in the first quarter of 2021;
- Days sales outstanding: 66 days at March 31, 2022, compared to 67 days at December 31, 2021;
- Cash: \$216.3 million at March 31, 2022, compared to \$263.7 million at December 31, 2021;
- Share repurchases: In the three months ended March 31, 2022, we reduced our common shares outstanding by approximately 0.1%, primarily through the repurchase of approximately 0.4 million shares of our common stock, under the share repurchase program authorized by our board of directors for a total investment of \$50.0 million. In April 2022, our Board of Directors approved raising the Company's remaining share repurchase authority to an aggregate of \$75.0 million of our outstanding common stock.

Below we discuss our consolidated results of operations for the first quarters of 2022 and 2021.

## **Revenue**

	Three Months Ended March 31,				
			% Change vs. Prior Year	% of Total Revenue	
	2022	2021		2022	2021
	(in thousands)				
Cloud subscriptions	\$ 37,297	\$ 26,643	40%	21%	17%
Software license	8,358	7,838	7%	5%	5%
Maintenance	35,302	36,159	-2%	20%	23%
Services	89,918	80,359	12%	50%	51%
Hardware	8,081	5,851	38%	4%	4%
Total revenue	<u>\$ 178,956</u>	<u>\$ 156,850</u>	<u>14%</u>	<u>100%</u>	<u>100%</u>

**Cloud Subscriptions Revenue.** In the first quarter of 2022, cloud subscriptions revenue increased \$10.7 million compared to the same quarter in the prior year, as customer demand for our SaaS offerings is outpacing traditional perpetual license solutions. Our customers increasingly prefer cloud-based solutions, including existing customers that are migrating from on-premise to cloud-based offerings. Cloud subscriptions revenue for the Americas, EMEA and APAC segments increased \$9.0 million, \$1.3 million and \$0.4 million in the first quarter of 2022, respectively.

**Software License Revenue.** Software license revenue increased \$0.5 million in the first quarter of 2022 compared to the same quarter in the prior year. License revenue for the EMEA segment increased \$0.8 million, while Americas and APAC segments decreased \$0.1 million and \$0.2 million in the first quarter of 2022, respectively. The perpetual license sales percentage mix across our product suite in the first quarter ended March 31, 2022 was over 90% warehouse management solutions.

**Maintenance Revenue.** Maintenance revenue decreased \$0.9 million in the first quarter of 2022 compared to the same quarter in the prior year. Maintenance revenue for the Americas and EMEA segments decreased \$0.3 million and \$0.7 million in the first quarter of 2022 respectively, while maintenance revenue for APAC increased \$0.1 million compared to the same quarter in the prior year.

**Services Revenue.** Services revenue increased \$9.6 million in the first quarter of 2022 compared to the same quarter in the prior year. Services revenue for the Americas, EMEA and APAC segments increased \$5.9 million, \$2.3 million, and \$1.4 million, respectively, compared to the same quarter in the prior year.

**Hardware Revenue.** Hardware sales increased \$2.2 million in the first quarter of 2022 compared to the same quarter in the prior year. The majority of our hardware revenue is derived from our Americas segment. Sales of hardware is largely dependent upon customer-specific desires, which fluctuate.

## Cost of Revenue

	Three Months Ended March 31,		
	2022	2021	% Change vs. Prior Year
Cost of software license	\$ 402	\$ 556	-28%
Cost of cloud subscriptions, maintenance and services	83,025	73,509	13%
Total cost of revenue	\$ 83,427	\$ 74,065	13%

**Cost of Software License.** Cost of software license consists of the costs associated with software reproduction; media, packaging and delivery; documentation, and other related costs; and royalties on third-party software sold with or as part of our products. Cost of software license decreased by \$0.2 million in the first quarter of 2022 compared with the same quarter in the prior year.

**Cost of Cloud Subscriptions, Maintenance and Services.** Costs of cloud subscriptions, maintenance and services consist primarily of salaries and other personnel-related expenses of employees dedicated to cloud subscriptions; maintenance services; and professional and technical services as well as hosting fees. The \$9.5 million increase in the quarter ended March 31, 2022 compared to the same quarter in the prior year was principally due to a \$8.8 million increase in compensation and other personnel-related expenses, and a \$1.0 million increase in travel expenses, partially offset by a \$0.5 million decrease in performance-based compensation.

## Operating Expenses

	Three Months Ended March 31,		
	2022	2021	% Change vs. Prior Year
	(in thousands)		
Research and development	\$ 27,455	\$ 24,260	13%
Sales and marketing	14,390	13,396	7%
General and administrative	17,965	17,569	2%
Depreciation and amortization	1,747	2,135	-18%
Operating expenses	\$ 61,557	\$ 57,360	7%

**Research and Development.** Our principal R&D activities have focused on the expansion and integration of new products and releases, including cloud-based solutions, while expanding the product footprint of our software solution suites in Supply Chain, Inventory Optimization, Omnichannel and point-of-sale.

For each of the quarters ended March 31, 2022 and 2021, we did not capitalize any R&D costs because the costs incurred following the attainment of technological feasibility for the related software product through the date of general release were insignificant.

R&D expenses primarily consist of salaries and other personnel-related costs for personnel involved in our R&D activities. R&D expenses for the quarter ended March 31, 2022 increased by \$3.2 million, compared to the same quarter of 2021 principally due to a \$3.4 million increase in compensation and other personnel-related expenses.

**Sales and Marketing.** Sales and marketing expenses include salaries, commissions, travel and other personnel-related costs and the costs of our marketing and alliance programs and related activities. Sales and marketing expenses increased \$1.0 million in the quarter ended March 31, 2022 compared to the same quarter in the prior year primarily due to a \$0.6 million increase in compensation and other personnel-related expenses.

**General and Administrative (G&A).** G&A expenses consist primarily of salaries and other personnel-related costs of executive, financial, human resources, information technology, and administrative personnel, as well as facilities, legal, insurance, accounting, and other administrative expenses. G&A expenses increased \$0.4 million, in the current year quarter compared to the same quarter in the prior year.

**Depreciation and Amortization.** Depreciation and amortization of intangibles and software expense for the first quarter of 2022 and 2021 was \$1.7 million and \$2.1 million, respectively. Amortization of acquisitions expense for the first quarter of 2022 and 2021 was immaterial.

### Operating Income

Operating income in the first quarter of 2022 was \$34.0 million compared to \$25.4 million in the same quarter in the prior year. Operating margin was 19.0% for the first quarter of 2022 versus 16.2% for the same quarter in the prior year. Operating income and operating margin increased primarily due to increased cloud subscriptions and services revenues.

### Other Income and Income Taxes

	<b>Three Months Ended March 31,</b>		
	<b>2022</b>	<b>2021</b>	<b>% Change vs. Prior Year</b>
Other income (loss), net	\$ 738	\$ (293)	-352%
Income tax provision	4,118	2,489	65%

**Other income (loss), net.** Other income (loss), net primarily includes interest income, foreign currency gains and losses, and other non-operating expenses. Other income (loss), net increased \$1.0 million in the first quarter of 2022 compared to the same quarter in the prior year primarily due to gains or losses on intercompany transactions denominated in foreign currencies with subsidiaries due to the fluctuation of the U.S. dollar relative to other foreign currencies, primarily the Indian Rupee. We recorded net foreign currency gains of \$0.7 million in the first quarter of 2022 and net foreign currency losses of \$0.3 million in the first quarter of 2021.

**Income tax provision.** Our effective income tax rate was 11.9% and 9.9% for the quarters ended March 31, 2022 and 2021, respectively. The decrease in the effective tax rate for the three months ended March 31, 2022 is due to a decrease of excess tax benefits on restricted stock vesting as a percentage of pre-tax income and an increase in expense related to restricted stock compensation limits.

### Liquidity and Capital Resources

During the first three months of 2022, we funded our business exclusively through cash generated from operations. Our cash and cash equivalents as of March 31, 2022 included \$162.6 million held in the U.S. and \$53.7 million held by our foreign subsidiaries. We believe that our cash balances in the U.S. are sufficient to fund our U.S. operations. In the future, if we elect to repatriate the unremitted earnings of our foreign subsidiaries, we would not be subject to additional U.S. income taxes on such earnings, but we could be subject to additional local withholding taxes.

Cash flow from operating activities totaled \$31.8 million and \$39.9 million in the three months ended March 31, 2022 and 2021, respectively. Typical factors affecting our cash provided by operating activities include our level of revenue and earnings for the period, the timing and amount of employee bonus and income tax payments, and the timing of cash collections from our customers which is our primary source of operating cash flow. Cash flow from operating activities for the three months ended March 31, 2022 decreased \$8.1 million compared to the same period in the prior year, which is mainly due to an increase in employee bonus payments and the timing of cash collections from our customers.

Cash flow used in investing activities totaled \$1.2 million and \$0.6 million in the three months ended March 31, 2022 and 2021, respectively. Our investing activities for both the three months ended March 31, 2022 and 2021 consisted of capital spending to support company growth.

Financing activities used cash of \$77.1 million and \$46.4 million for the three months ended March 31, 2022 and 2021, respectively. The principal use of cash for financing activities in both periods was to purchase our common stock, including shares withheld for taxes due upon vesting of restricted stock. Repurchases of our common stock for the three months ended March 31, 2022 and 2021 totaled \$77.1 million and \$46.4 million, respectively, including shares withheld for taxes of \$27.1 million and \$19.4 million, respectively.

Periodically, opportunities may arise to grow our business through the acquisition of complementary products, and technologies. Any material acquisition could result in a decrease to our working capital depending on the amount, timing, and nature of the consideration to be paid. We believe that our existing cash will be sufficient to meet our working capital and capital expenditure needs at least for the next twelve months, although there can be no assurance that this will be the case. We continue to focus on managing liquidity, while investing in and growing our headcount capacity to support our customers and grow our business. For the remainder of 2022, we anticipate that our priorities for use of cash will be similar to prior years, with our first priority being continued investment in product development and profitably and investing in our business to extend our market leadership. We will continue to weigh our share repurchase options against cash for acquisitions and investing in the business. We will also continue to evaluate acquisition opportunities that are complementary to our product footprint and technology direction. At this time, we do not anticipate any borrowing requirements for the remainder of 2022 for general corporate purposes.

### **Aggregate Contractual Obligations**

Our principal commitments consist of multiple non-cancellable contracts for cloud infrastructure services and obligations under operating leases. As of March 31, 2022, our cloud infrastructure obligations are approximately \$124.2 million over the next 5 years. We also enter into non-cancellable subscriptions in the ordinary course of business for internal software to support our operations. Our obligations, as of March 31, 2022, are approximately \$20.9 million over the next 3 years. We expect to fulfill all these commitments from our working capital.

### **Critical Accounting Policies and Estimates**

In the first three months of 2022, there were no significant changes to our critical accounting policies and estimates from those disclosed in the section “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the year ended December 31, 2021.

### **Forward-Looking Statements**

Certain statements contained in this filing are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, including but not limited to statements related to expectations about global macroeconomic trends and industry developments, plans for future business development activities, anticipated costs of revenues, product mix and service revenues, research and development, selling, general and administrative activities, and liquidity and capital needs and resources. When used in this quarterly report, the words “may,” “expect,” “forecast,” “anticipate,” “intend,” “plan,” “believe,” “could,” “seek,” “project,” “estimate,” and similar expressions are generally intended to identify forward-looking statements. Undue reliance should not be placed on these forward-looking statements, which reflect opinions only as of the date of this quarterly report. Such forward-looking statements are subject to risks, uncertainties, and other factors that could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. Investors are cautioned that forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements.

Some of the factors that could cause actual results to differ materially from the results discussed in forward-looking statements include:

- the duration and severity of the coronavirus disease (COVID-19) pandemic and of measures taken to combat its spread, and the effects of both on our employees, customers, partners and the global economy;
- ongoing disruption and transformation in our vertical markets, including the aggravating effects of the COVID-19 pandemic on the sector;
- the operational and financial effects of our business transition to cloud subscription-based solutions;
- economic, political and market conditions, including inflation;
- our ability to attract and retain highly skilled employees;
- competition;
- our dependence on a single line of business;
- our dependence on generating revenue from software licenses and cloud subscriptions to drive business;
- undetected errors or “bugs” in our software;
- the risk of defects, delays or interruptions in our cloud subscription services;
- possible compromises of our data protection and IT security measures;

- risks associated with large system implementations;
- possible liability to customers if our products fail;
- the requirement to maintain high quality professional service capabilities;
- the risks of international operations, including foreign currency exchange risk;
- the war in Ukraine;
- the possibility that research and development investments may not yield sufficient returns;
- the long sales cycle associated with our products;
- the difficulty of predicting operating results;
- the need to continually improve our technology;
- risks associated with managing growth;
- reliance on third party and open source software;
- the need for our products to interoperate with other systems;
- the need to protect our intellectual property, and our exposure to intellectual property claims of others;
- the possible effects on international commerce of new or increased tariffs, or a “trade war”;
- other risks described under the heading “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2021, as these may be updated from time to time in subsequent quarterly reports.

We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes in future operating results.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risk.**

There were no material changes to the Quantitative and Qualitative Disclosures about Market Risk previously disclosed in our annual report on Form 10-K for the year ended December 31, 2021.

### **Item 4. Controls and Procedures.**

#### **Disclosure Controls and Procedures**

We maintain disclosure controls and procedures designed to provide reasonable assurance that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

No system of controls, no matter how well designed and operated, can provide absolute assurance that the objectives of the system of controls are met, and no evaluation of controls can provide absolute assurance that the system of controls has operated effectively in all cases. Our disclosure controls and procedures however are designed to provide reasonable assurance that the objectives of disclosure controls and procedures are met.

As of the end of the period covered by this report, our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures. Based on the evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective to provide reasonable assurance that the objectives of disclosure controls and procedures are met.

#### **Changes in Internal Control over Financial Reporting**

During the three months ended March 31, 2022, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting, including any corrective actions with regard to material weaknesses.

**PART II**  
**OTHER INFORMATION**

**Item 1. Legal Proceedings.**

From time to time, we may be a party to legal proceedings arising in the ordinary course of business, and we could be a party to legal proceedings not in the ordinary course of business. We are not currently a party to any legal proceeding the result of which we believe could have a material adverse impact upon our business, financial position, results of operations, or cash flows.

Many of our product installations involve software products that are critical to the operations of our customers' businesses. Any failure in our products could result in a claim for substantial damages against us, regardless of our responsibility for such failure. Although we attempt to contractually limit our liability for damages arising from product failures or negligent acts or omissions, there can be no assurance that the limitations of liability set forth in our contracts will be enforceable in all instances.

**Item 1A. Risk Factors.**

In addition to the other information set forth in this report, you should carefully consider the risk factors disclosed in Item 1A, "Risk Factors," of our annual report on Form 10-K for the year ended December 31, 2021.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

The following table provides information regarding common stock purchases under our publicly announced repurchase program for the quarter ended March 31, 2022.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
January 1 - January 31, 2022	-	\$ -	-	50,000,000
February 1 - February 28, 2022	232,168	129.14	232,168	20,018,126
March 1 - March 31, 2022	151,190	132.18	151,190	34,567
Total	<u>383,358</u>		<u>383,358</u>	

**Item 3. Defaults Upon Senior Securities.**

No events occurred during the quarter covered by this report that would require a response to this item.

**Item 4. Mine Safety Disclosures.**

Not applicable.

**Item 5. Other Information.**

None

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER  
PURSUANT TO RULE 13a-14(a)/15d-14(a), AS ADOPTED PURSUANT TO  
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Eddie Capel, certify that:

1. I have reviewed this quarterly report on Form 10-Q of the registrant;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
